## French 75's The Bebbo Cocktail

Believed to be based on a 1920s cocktail called the Bees Knees, the Bebbo Cocktail has the addition of orange juice and is perfect for spring and summer. Our version includes Rutland Honey, but any honey can be used

### Ingredients

- 1.5oz (45ml) gin
- 1oz (30ml) fresh lemon juice
- 0.5oz (15ml) orange juice
- 0.5oz (15ml) Rutland Honey or Oakham Honey\*

### Method

1. Add all the ingredients to a shaker half-filled with ice.
2. Shake very well until the honey fully dissolves.
3. Strain into a cocktail glass.

\* Runny honey is easier to use, but our local honey is not always runny - if you have a more solid honey, melt it gently in a pan and mix with the other ingredients first before shaking with the ice.
